D-SNP Enrollments by Plan

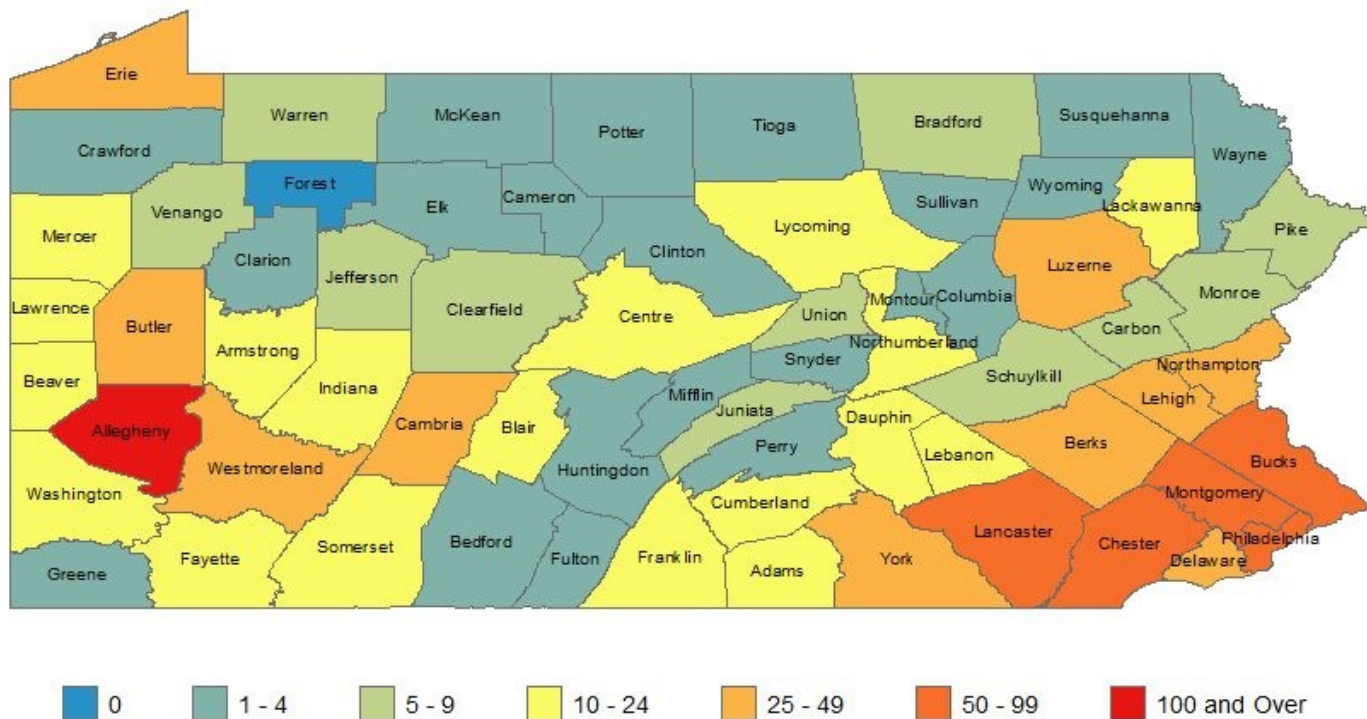

*Dec data may be excluding participants who changed Medicare MCO during open enrollment, due to IT system rules.

Data Period: May 2021

D-SNP participants have increased 16.63 since May 2020. The decrease in D-SNP enrollment for December is likely a data anomaly related to timing issues of when OLTL sends enrollment to CMS and when CMS sends D-SNP enrollment back, potentially due to open enrollment in Q4 2020. A mismatch between CMS and OLTL's IT systems would not count as a D-SNP enrollment for a particular plan. This will continue to be footnoted on future data briefs.
