View Restriction on the Map

The APRAS Map, both on home page, and in each application, provides functionality to view restrictions directly on the map. Select the layers (📍) option to enable or disable restrictions.

The screenshot displays the APRAS web application interface. On the left is a side navigation menu with options: Home, Applications (with sub-options for Create, Search, Alerts, Bid Routing, Administration, Permitting Resources, Contact Info, and Help), Urgent Alerts, Application Status, and Recently Issued Permits. The main content area is divided into three sections:

- Urgent Alerts:** A prominent orange alert for '0711 North/South' construction in Westmoreland, PA, with details on dates and restrictions.
- Application Status:** A table listing application IDs, dates, and statuses (Issued, New, Under Review).
- Recently Issued Permits:** A list of permits with their IDs, dates, and descriptions.

 On the right is the 'Route Restrictions Map' showing a map of Pennsylvania with various route restrictions overlaid. The map includes a search bar for 'Application ID...', a 'Zoom to location' button, and a 'Layers' icon to toggle restriction visibility. Major cities like Buffalo, Pittsburgh, Harrisburg, Philadelphia, and Baltimore are labeled on the map.
