PUB 809TCI (7-24)

Join our Construction Team!

From working in the office to getting your boots on the ground, PennDOT offers many opportunities across the Commonwealth for those interested in construction. The work you do will shape the world around you as a Transportation Construction Inspector (TCI).

TCIs will perform inspections on roads, bridges, or other transportation projects. It's their job to ensure that projects are compliant with contract requirements by interpreting plans and specifications and taking field measurements. TCIs also perform tests on construction materials for quality assurance and inspect workmanship to be certain that the Department is getting a high quality product. Being a TCI offers the opportunity to work independently, while still being part of a larger construction team. Our TCIs utilize top of the line tools and the latest technological advances in their everyday work, including 3D modeling, iPads, and global navigation satellite systems (GNSS).

We offer a competitive salary and excellent health benefits package, generous paid holiday, vacation, and sick leave, life insurance, and retirement/pension benefits. Working for PennDOT provides great job stability, and a clear path to advancing your career. Many of our Construction Managers began their careers as TCIs!

Plus, the Commonwealth of PA is a qualifying employer for the Federal Public Service Loan Forgiveness Program, for which your student loans may be eligible. Check myfedloan.org for more details.

Join the Department of Transportation and enjoy the satisfaction of knowing that what you do directly contributes to the safety of your fellow Pennsylvanians, as well as those traveling through our beautiful state!

Keeping Pennsylvania moving...

Pennsylvania Department of Transportation (PennDOT) is responsible for planning, designing, constructing, and maintaining approximately 40,000 miles of state-operated roadways and nearly 25,400 bridges statewide. PennDOT also oversees public transit, passenger rail, rail freight, ports and aviation.

This is an enormous task requiring many innovative solutions for today's needs. Additionally, PennDOT administers the state's nearly 12 million vehicle registrations and 10.3 million driver licenses and ID cards.

Pennsylvanians rely on PennDOT to keep them moving when and where they want with minimal inconvenience. To meet this critical mission, PennDOT needs individuals with a driving commitment to excellence and public service!
