

Titusville Airport (6G1) is a general aviation airport near the City of Titusville, which is close to both the New York and Ohio borders, making it a prime location for regional travelers. The airport prides itself as being an active member of the local community, and local business leaders and government officials volunteer their services at the airport. In a testament to the local community's investment in the airport, a seven-member panel makes recommendations to Titusville's elected officials for all improvement projects. The airport serves the local community by providing support for LifeStar and STAT MedEvac air ambulatory services, which provides emergency air transportation. The airport also provides an Annual Air Show and weekly model airplane flying.

This airport is classified as a Advanced Airport in Pennsylvania's State Aviation System Plan and is eligible to receive federal funding from the FAA.
